#### MATTI HYYTIÄINEN, PRESIDENT & CEO:

"PKC's revenue was EUR 829.2 million. PKC's market position remained strong in all central product and geographical operating areas throughout the financial year. The number of trucks manufactured in Europe and Brazil fell short of the level of the previous year. Due to decreased production volumes, our revenue in Europe and Brazil fell. In North America, the production volumes of trucks exceeded the volumes of the previous year. Despite the positive truck market, PKC's revenue in North America remained at the level of the previous year, as revenue was decreased by some product programmes of light vehicles and components reaching the end of their lifecycle. The revenue for PKC's Electronics segment decreased in comparison to the previous year due to weakened demand in the EMS product area.

PKC's operating profit before non-recurring items was EUR 21.7 million. The operating profit was unsatisfactory as a result of significant losses sustained in Brazil. Furthermore, investment in implementing strategy added the company's expenses in the financial year.

Cash flows from operations was at the level of previous financial year, totalling EUR 41.0 million. The company is free of net liabilities, with gearing at -5.6%.

I want to warmly thank all PKC employees for the fact that once again we have succeeded in serving our customers in an excellent fashion. Several recognitions we have received during the financial year are a token of this.

In 2015, we expect the market environment to be fluctuating. The production of trucks in North America is forecast to grow from the level of 2014. On the other hand, we forecast the production of trucks in Europe to remain at the level of the previous year at most and the production in Brazil to decrease from the level of previous year. The demand for the products of PKC's electronics segment is estimated to remain at the current level."

## OPERATING ENVIRONMENT

### Wiring Systems Business

PKC's key customers operate in the commercial vehicle industry which products are investment goods and as such their demand is highly correlated to the general economic situation. Economic activity continued to improve in North America during the fourth quarter. The growth of the European economy has been anemic and the inflation has continued to decrease. Events in Ukraine continued to maintain uncertainty in Europe. In Brazil, the economic growth has slowed down and the inflation has continued to increase. China's economic indicators have been slightly weaker recently.

PKC's product program life cycles are long, therefore PKC's market share variations in the short term are mainly explained by changes in customers' market share. During 2014, PKC's regional market shares in truck production fluctuated somewhat from quarter to quarter. The largest fluctuation occurred in the market shares of the European heavy duty truck markets (38%-42%) and medium duty truck markets (20%-23%) and Brazilian heavy duty markets (30%-36%). In Brazilian medium duty truck market and North American truck market the market share development was relatively stable during 2014.

The weakening of PKC Group's functional currency euro against US dollar started on second quarter and continued during the fourth quarter. Brazilian real weakened significantly during the fourth quarter. US dollar strengthened against Mexican peso and was on a stronger level than in the comparison period. The Russian ruble depreciated substantially during the fourth quarter and has remained clearly weaker than in the comparison period. Majority of PKC's Russian manufacturing output is being exported. The price of key raw material, copper, decreased during the quarter ending up on a lower level than year ago. On average the customer sales prices are updated with a 3-5 month delay on the basis of copper price changes.

Transition to Euro 6 emission standard at the beginning of 2014 has kept the demand of trucks below the level of previous year especially in the fourth quarter where comparison figures include substantial pre-buy impact. The economic environment especially in the southern parts of Europe has suppressed truck demand.

The conditions have remained favourable for strong truck demand in North America. The transportation companies' profitability has remained good and readiness to buy has increased. The increased volumes are resulting from both replacement sales and expansion of the market due to strong economic growth in USA.

In Brazil the current economic situation has had a negative impact on the demand for trucks. However, there has been seasonal volatility from one quarter to another. The reduction in terms of governmental incentives to support truck markets has had an adverse impact to demand.

### Electronics Business

Economic uncertainty in Europe and global caution among companies towards industrial investment exerted a negative impact on the demand for electronics products. The demand for renewable-energy and energy saving products including smart grid solutions on the market fell short of the level of the previous year. The market demand for telecommunications and telecommunications network related products increased from the previous year.

## REVENUE AND FINANCIAL PERFORMANCE

### October-December 2014

Revenue in October-December amounted to EUR 208.5 million (EUR 212.1 million), down 1.7% on the same period a year earlier. Calculated with comparison period's exchange rates the revenue declined by approximately 6% on the same period a year earlier. The revenue in North America included some negative impact due to light vehicle program build-outs where a major individual program ended in early December. The effect of consolidation exchange rate changes increased the North American revenue by approximately +5% in the fourth quarter. In Europe lower truck production volumes decreased revenue significantly and a customer's decision to insource a bus wiring harness program has also continued to impact negatively. In Europe the revenue has also been impacted by changes in the product portfolio whereby some programs have ended while new programs are ramping up, the net effect of which has decreased the revenue slightly.

During the report period EUR -11.7 million (EUR -2.1 million) in non-recurring items were recognised. Non-recurring items consist mainly of restructuring expenses related to development program in Europe and South America which was announced in August 2014, and of non-recurring items related to the closure of Nogales, Mexico factory which was announced in January, 2014. Non-cash non-recurring items were EUR -4.2 million (EUR -0.5 million). EBITDA before non-recurring items was EUR 9.2 million (EUR 13.9 million) and 4.4% (6.6%) of revenue. Operating profit before non-recurring items and PPA depreciation and amortisation related to acquisitions totalled EUR 4.2 million (EUR 9.8 million), accounting for 2.0% of revenue (4.6%). Operating profit (loss) totalled EUR -9.6 million (EUR 4.6 million), accounting for -4.2% of revenue (2.2%). Operating profit was negatively impacted by lower utilization rates in Europe and by losses of the Brazilian unit. The increased demand and production volume of heavy and medium duty trucks in North America has temporarily had a negative impact on profitability due to labour shortages, increased labour costs due the excessive overtime and due to higher other expenses. In addition, profitability was negatively impacted by reorganisation and program transfers in Europe and expenditures related to the implementation of PKC's growth strategy. Total depreciation and amortisation amounted to EUR 8.7 million (EUR 7.8 million), including EUR 1.7 million in non-recurring items (EUR 0.5 million). PPA depreciation and amortisation amounted to EUR 2.1 million (EUR 3.2 million).

Financial items were EUR -1.5 million (EUR -2.7 million). Financial items include foreign exchange differences totalling EUR -1.0 million (EUR -0.9 million). ## FINANCIAL POSITION AND CASH FLOW

Consolidated total assets on 31 December 2014 amounted to EUR 456.3 million (EUR 455.6 million). At the close of the financial year, interest-bearing liabilities totalled EUR 101.4 million (EUR 100.4 million), which consisted of non-current interest-bearing debt.

PKC Group Plc signed on 30.10.2014 a new five year revolving credit facility agreement of EUR 90.0 million and a domestic commercial paper program of EUR 90.0 million. The new revolving credit facility replaced the previous revolving credit facility of EUR 30.0 million. The restructuring of financing was executed to ensure funding for investments, working capital and refinancing and to diversify the funding sources of PKC Group Plc.

The effective average interest rate of the interest-bearing debt including un-utilized credit facility was at the close of the financial year 4.4 % (3.8 %). The Group's equity ratio was 34.7% (42.7%) which was negatively influenced by large non-recurring items and additional taxes during 2014. Net interest-bearing liabilities totalled EUR -8.9 million (EUR -2.2 million) and gearing was -5.6% (-1.1%).

PKC Group uses derivatives to hedge risks arising from changes in key foreign exchange rates, interest rates and copper price. At the end of the financial year nominal value of copper derivatives (forward contracts) was EUR 3.7 million (EUR 8.1 million). The Group utilizes euro-denominated interest rate swaps to maintain the targeted level for interest rate fixing term. Based on these interest rate swaps the Group receives fixed rate interest until September 2018 and pays floating interest based on Euribor six months rate. The nominal value of these interest rate swaps was EUR 50.0 million (EUR 75.0 million) at the close of the financial year. At the end of financial year the nominal amount of currency forwards was EUR 63.0 million (EUR 18.2 million).

Inventories amounted to EUR 79.4 million (EUR 80.2 million). Current receivables totalled EUR 107.1 million (EUR 110.4 million). Net cash from operating activities was EUR 41.0 million (EUR 39.7 million) and cash flow after investments during the financial year was EUR 20.7 million (EUR 24.9 million). The core net working capital (inventories, trade receivables and trade payables) decreased significantly from end of previous quarter due to lower volumes around the year-end shutdown period. Net working capital at the end of December 2014 totalled EUR 26.2 million (EUR 63.5 million) representing a decrease of EUR 40.7 million during the quarter, while in the comparison period the decrease was EUR 37.3 million. Total net working capital was reduced by the recording of additional EUR 8.3 million tax liability in the third quarter and by liabilities related to non-recurring items in Europe, South America and North America which are to be paid during 2015. Cash and cash equivalents amounted to EUR 110.3 million (EUR 102.7 million).

## CAPITAL EXPENDITURE

During the financial year, the Group's gross capital expenditure totalled EUR 19.9 million (EUR 14.6 million), representing 2.4% of revenue (1.7%). Gross capital expenditure is geographically divided as follows: North America 40.7% (44.3%), Europe 40.4% (27.8%), South America 9.6% (22.7%) and APAC 9.2% (5.2%). The capital expenditure consisted mainly of production machinery and equipment during the financial year. Investments into Serbia, Lithuania and China new wiring harness production facilities increased the capital expenditure from the comparison period.

PKC estimates that in the medium term, the Group's replacement investment level is close to its annual depreciation and amortisation level excluding PPA related depreciation and amortization, and impairment losses. The Group's depreciation, amortisation and impairment losses amounted to EUR 33.5 million (EUR 32.9 million) in the financial year. Excluding PPA related depreciation and amortisation, and impairment losses it amounted to EUR 19.0 million (EUR 17.9 million).

## RESEARCH & DEVELOPMENT

Research and development costs totalled EUR 8.2 million (EUR 8.5 million), representing 1.0% (1.0%) of the consolidated revenue. At the end of financial year 149 (156) people worked in product development, excluding production development and process development personnel.

In its product strategy, product development in PKC's Wiring Systems business takes into consideration the long- and short-term product development needs of PKC's customers and the latest development trends in the automotive industry.

PKC's main products are individually tailored electrical distribution systems, in addition to which PKC's product development is a pioneer in the application of new solutions for the needs of its customers. A growing part of PKC's global product range is vehicle electronics, through which PKC can offer its customers more thoroughly optimised electrical distribution systems.

Through active technological development, improvement is constantly being sought in product quality and performance: alternative materials are researched and utilised, and new innovative solutions are developed for the vehicle electrical distribution systems architecture. Improvements are being implemented cost-effectively with the aim of minimising the overall costs of the customer's product.

The strong areas of expertise of PKC's Electronics business product development are test and power management solutions.

## PERSONNEL

During the financial, the Group had an average payroll of 19,640 employees (19,206). At the end of the financial year, the Group's personnel totalled 19,437 employees (18,644), of whom 19,141 (18,338) worked abroad and 296 (306) in Finland. In addition the Group had at the end of the financial year 605 (613) temporary employees. In the financial year 97.0% of the personnel were employed by the wiring systems business segment and 2.9% by the electronics business segment. Geographically personnel was divided at the end of the financial year as follows: North America 58.4%, Europe 27.4%, South America 12.2% and Asia 2.1%. Total amount of financial year's employee benefit expenses was EUR 216.6 million (EUR 201.2 million) including EUR 12.2 million (EUR 5.3 million) classified as non-recurring expenses.

Majority of PKC's manufacturing is labour intensive and the Group's competitiveness is based on its skilled personnel. In order to maintain a skilled and engaged workforce, PKC focuses on developing its employees' competences. PKC takes a systematic approach to labour protection and frequently follows e.g. injury and occupational disease rates and absentee rates which are reported also in PKC Group's corporate responsibility report.

## QUALITY AND THE ENVIRONMENT

Almost all of the Group's factories are certified in accordance with requirements of the ISO/TS16949 quality standard for the automotive industry excluding factory in Traverse City (USA) and Raahe (Finland) electronics factory, which are certified in accordance with requirements of ISO9001 standard. In addition the new wiring systems factories in Panevezys (Lithuania) and Smederevo (Serbia) have not yet been certified according to ISO/TS16949 quality standard requirements. Electronics factory in Raahe (Finland) is also certified according to ISO13485 quality standard for medical equipment manufacturing. All of the Group's factories are certified in accordance with the ISO14001 environmental standard and all factories operate in accordance with the ISO9001 quality standard except the new wiring systems factory in Panevezys (Lithuania) which has not yet been certified. Preparations to recertify Curitiba (Brazil) factory according to ISO14001 environmental standard is on-going. ## CORPORATE RESPONSIBILITY

Corporate responsibility is a key element in PKC's operations. PKC operates with ethical business practice, takes responsibility for the operating environment and strives to minimize any harm caused to the environment, and respects and promotes human rights and fair workplace practices, equal opportunities, and zero-tolerance policy on bribery and corruption. PKC Group's Board of Directors has ratified the Code of Conduct covering the whole group. The Code of Conduct sets principles for ethical business practice and is based on the highest ethical standards. Compliance with legislation, regulations and international norms is a fundamental requirement, from which it is not possible to deviate in any circumstances.

PKC's Corporate Responsibility report for 2014 will be published on 10 March 2015.

## STRATEGY 2018

Strategic objectives have been announced in the capital market day held 3 April 2013.

PKC is a global partner, designing, manufacturing and integrating electrical distribution systems for the commercial vehicle industry and other selected segments. PKC is seeking growth within its current Commercial Vehicle markets and customers as well as in the growing markets of Asia. In addition, PKC is studying growth opportunities in expanding its business further within Transportation Industry. This is a segment where PKC can further utilize its unique knowhow as a global supplier of electrical distribution systems.

The long-term financial targets of PKC Group Plc is to reach EUR 1.4 billion revenue by 2018 and at least 10% EBITDA, while maintaining gearing below 75%. The targeted dividend payout is 30 - 60% of the cash flow after

investments.

### **Key strategic highlights of 2014**

On 7 January 2014 PKC Group Plc announced to optimise its manufacturing footprint in North America. PKC decided to close the factory in Nogales, Mexico in order to further adapt and align its manufacturing capacity to the North American customer base. In addition PKC has established a wiring systems company in Lithuania.

On 7 August 2014 PKC Group Plc announced to start a development program as a continuation for the consolidation of the wiring systems business in Europe and South America. The development program is started due to the expected change in the business environment where consolidation of customers will result in change in purchasing behaviour that requires new production structure and model in Europe and South America. Program shall bring growth opportunities also through benefits of scale and redirecting resources.

### **EVENTS AFTER THE FINANCIAL YEAR**

PKC Group announced three new share-based incentive plans for the Group key personnel approved by the Board of Directors.

### **SHORT-TERM RISKS AND UNCERTAINTIES**

The demand for PKC's products is dependent especially on the volatility of the global commercial vehicle industry as well as the development of PKC's customers' businesses.

Uncertainty related to emerging markets' economic development has increased. Especially in Brazil higher inflation as well as economic and political uncertainty has continued. The growth of the European economy has not accelerated and the inflation has continued to decrease.

Consolidation of the customer base and changes in customers' relative market shares and sourcing strategies may affect demand of PKC's products.

Weakening of the US dollar against the Mexican peso as well as the weakening of the euro against the Polish zloty and the Russian rouble may increase PKC's processing costs. Strengthening of the euro against the Brazilian real may increase PKC's material costs. A significant increase in copper price may weaken PKC Group's profit in short term. The customer prices are updated on average with a 3-5 month delay on the basis of copper price changes.

The objective of PKC Group's risk management is to identify risks relevant to business operations, and to determine the measures, responsibilities and schedules required for efficient risk management. The comprehensive risk management process is implemented across the whole PKC Group with the aim of establishing uniform procedures for the analysis and measurement of risks, taking into consideration the geographical differences between units. PKC's risks are classified into strategic, operational and financial risks. More information about PKC's risks is presented in the annual report and Corporate Governance Guidelines.

### **MARKET OUTLOOK**

#### **Wiring Systems Business**

In 2015 the production of heavy-duty and medium-duty trucks in Europe is expected to remain on previous year's level at the most.

Production of heavy-duty trucks in North America is expected to increase by about 14%, production of medium-duty trucks to decline by about 3% and production of light vehicles to increase by about 1% compared to 2014.

In 2015 the production of heavy-duty and medium-duty trucks in Brazil is expected to be lower than previous

year. The governmental incentive program to support the purchase of new trucks continues to be valid until further notice, although the terms have been weakened significantly. The weakened terms and both economic and political uncertainty in Brazil bear a considerable risk for Brazilian truck sales for 2015.

### **Electronics Business**

The market demand for Electronics segment's products is expected to remain at the current level.

### **PKC GROUP'S OUTLOOK FOR 2015**

PKC Group estimates that with prevailing exchange rates 2015 revenue will be close to previous year level, and that comparable EBITDA will be higher than in 2014. In 2014, PKC's revenue was EUR 829.2 million and comparable EBITDA before non-recurring items was EUR 48.9 million. Revenue and EBITDA estimates are based on current business structure.

### **THE BOARD OF DIRECTORS' PROPOSAL FOR THE DISPOSAL OF PROFITS**

The parent company's distributable funds are EUR 112.7 million, of which EUR 43.6 million is distributable as dividends, including the net profit (loss) for the financial year EUR -9.9 million. The Board of Directors will propose to the Annual General Meeting to be held on 1 April 2015 that a dividend of EUR 0.70 per share be paid for a total of EUR 16.8 million and that the remainder of the distributable funds be transferred to shareholders' equity. The number of shares may change due to share subscriptions registered before the record date. The record date for the dividend pay-out is 7 April 2015 and the payment date is 14 April 2015. In the view of the Board of Directors, the proposed dividend pay-out will not put the company's liquidity at risk.

### **ANNUAL REPORT 2014 AND CORPORATE GOVERNANCE STATEMENT**

PKC Group Plc will publish the Annual Report 2014, which contains the report by the Board of Directors and financial statements, auditor's report and a separate corporate governance statement on Tuesday, March 10, 2015. The Annual Report will be published on the PKC Group website.

### **ANNUAL GENERAL MEETING AND FINANCIAL REPORTS IN 2015**

The Annual General Meeting will be held on Wednesday, April 1, 2015.

In 2015, the Interim Reports will be published as follows:

- Interim Report 1-3/2015 Wednesday, May 6, 2015 at about 8.15 a.m.
- Interim Report 1-6/2015 Thursday, August 6, 2015 at about 8.15 a.m.
- Interim Report 1-9/2015 Thursday, October 29, 2015 at about 8.15 a.m.

The text section of this release focuses on the annual accounts. Comparisons have been made to the figures of the corresponding period in 2013, unless otherwise mentioned. The figures presented in the tables are independently rounded figures.

## 1. OPERATING SEGMENTS

Segment assets and liabilities include only those assets and liabilities that can be directly allocated to the respective segments. Group's unallocated expenses and income, and eliminations between segments are included in unallocated items of comprehensive income. Unallocated assets include mainly items related to Group management and also taxes and loan receivables. Unallocated liabilities include current and non-current loans and tax liabilities.
