

**The most valuable thing you can earn is trust.**

MotherSON is a multinational, people-focused enterprise serving a diversified industry range with a broad range of products and services, and is one of the 25 largest automotive suppliers worldwide. With 350 facilities spread across 41 countries and the strength of over 180,000 employees, the company has a truly global environment where diversity and inclusion drive our culture. **PKC Group**, a member of MotherSON Group is a trusted partner in the global commercial vehicle wiring harness industry. We provide our customers, leading industry expertise with a full-service concept of design capabilities and deliver tailored, cost-efficient solutions to them. Our unique know-how in managing the complexity of customized products and the ability to integrate into the customers operating environment provides a competitive advantage to our customers. If you are passionate about making an impact, we invite you to be part of our team.

**KEMPELE, FINLAND OR TALLINN, ESTONIA**

## **Application/Integration Architect**

### **Your tasks.**

This role requires a combination of technical expertise, project management skills, and effective communication abilities.

- Lead Business system development projects, collaborating with internal teams and system providers
- Define integration strategies and requirements aligning with Enterprise Architecture
- Create and maintain comprehensive documentation for application architecture, integrations, and data flows
- Monitor applications, ensuring configuration changes, data integrity, and security
- Implement new software integrations internally and with third-party applications
- Stay updated on industry trends and share knowledge with the organization
- Provide expert guidance to project teams on integration technology, data architecture, and system best practices

### **Your profile.**

- M.Sc. or B.Sc. degree in Computer Science, IT, or equal
- Several years of equivalent experience
- Proficiency in enterprise architecture, systems, integration, and data architecture standards, frameworks, and practices. Knowledge of common integration methods and technologies, incl. Web services, SOAP, JSON, XML, and similar methods. Experience with APIs from commercial software applications, such as ERP or MES systems.
- Collaborative team player fostering a positive, productive environment.
- Fluent in both spoken and written English.

### **What we offer.**

- **Global Team, local Impact:** If you enjoy working in an international multicultural environment and have a passion for Information Technology, our IT team, known for its collaborative environment and strong can-do attitude, awaits your expertise.
- **Work-life balance:** Flexibility with hybrid work opportunities for a healthier work-life balance.
- **Continuous learning:** Professional development and learning opportunities for your personal and career growth.
- **Competitive employment benefits:** We offer a comprehensive benefits package, ensuring your well-being and job satisfaction.

### **How to apply.**

- Please apply by Nov 26 2023 via <https://joy.clevry.com/public-job-description/1992>. The position may be filled already during the recruitment process once a suitable candidate is found.
- Applications are processed jointly by PKC Estonia and Finland HR. The position is based in Finland or Estonia.
- Applicants from abroad, please note that work begins upon finding the right candidate; thus, a valid residence/work permit, per country-specific regulations, is required.
