Key responsibilities in this role are:

- **Project Management:** Lead development projects with internal and external partners and control project flow and onsite implementations.
- **Specifications & Testing:** Prepare written specifications, ensure system compliance, and monitor corrective actions and progress.
- **Training & Support:** Create/update training materials, train users and assist super and key users; support helpdesk team.

Your profile.

- M.Sc. or B.Sc. degree in Computer Science, IT, or equal
- Previous experience in business processes is advantageous
- A 'can-do' mindset and proactively takes the initiative
- Ability to analyze and solve problems effectively
- Professional knowledge of Microsoft tools
- Good training skills and effective influencing techniques
- Strong teamwork, cooperation, and cross-functional communication skills
- Fluent in both spoken and written English

What we offer.

If you enjoy working in an international cross-cultural environment, have a strong project-oriented focus, and excel in both independent and collaborative work, this opportunity is tailored for you. Join us for:

- **Work-life balance:** Flexibility with hybrid work opportunities for a healthier work-life balance.
- **Continuous Learning:** Professional development and learning opportunities for your personal and career growth.
- **Competitive employment benefits:** We offer a comprehensive benefits package, ensuring your well-being and job contentment.

How to apply.

- Please apply by Nov 26 via <https://joy.clevry.com/public-job-description/1990>. The position may be filled already during the recruitment process once a suitable candidate is found.
- Applications are processed jointly by PKC Estonia and Finland HR. The position is based in Finland or Estonia.
- Applicants from abroad, please note that work begins upon finding the right candidate; thus, a valid residence/work permit, per country-specific regulations, is required.
